

# MANAGED DETECTION & RESPONSE SERVICES

BROCHURE

# WE'VE GOT YOU COVERED AND DOING SO, IS OUR CORE BUSINESS.

The attack surface is expanding and evolving at a much faster pace than ever before. As organizations become more and more reliant on technology and third-party technology providers, the complexity and dependency on the IT ecosystem are significantly increasing. It's a matter of time before an organization suffers from a breach, which might result in data loss, systems outages and reputational damage.

## DO YOU HAVE 24/7 REAL-TIME VISIBILITY OF YOUR SECURITY POSTURE?

This is why organizations safeguard valuable information by maintaining their information security posture in optimal operational and effectiveness state, they need a 24/7 close monitoring and analysis of event and log data generated. The effectiveness of monitoring and analysis of log and event data, however, is limited by the extent of their internal knowledge, experience, and access to the latest Threat Intelligence capabilities. Market research has repeatedly confirmed that it is next to impossible to develop and maintain internally the highly focused and continuously changing cybersecurity skills required to achieve this goal.

# MANAGED DETECTION & RESPONSE SERVICES

---

Odyssey's Managed Security services are designed to serve as a remote extension of an organization's security operations, helping them responding to threats before they materialized. As a result, these services empower organizations to reduce risk, enhance compliance and minimize their total cost of ownership while maintaining their digital assets in an optimal operational and effectiveness state whether they are in the cloud and/or on-premises.

MDR uniquely integrates expertise, technologies, methodologies, skills and experience to help you minimize the risk posed by sophisticated Insider, Third-Party and Cyber threats, efficiently and cost-effectively.

Odyssey's Managed Detection & Response Services uniquely integrate the expertise, technologies, methodologies, skills, and experience to help you minimize the risk posed by these sophisticated threats, efficiently and cost-effectively.

**Odyssey can help you address these challenges now, without you having to invest in additional technologies or scarce human resources.**

**ODYSSEY MDR SERVICES HELPS YOU  
CLOSE THE CYBERSECURITY SKILL & EXPERTISE GAP**

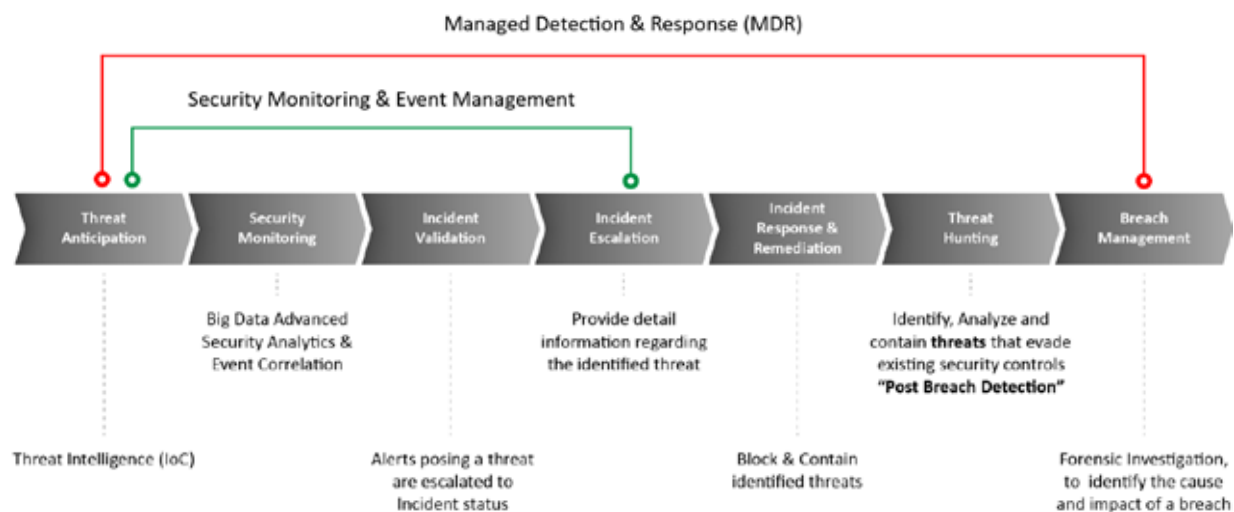

Operating out of our dedicated 24/7 certified Security Operations Centers (SOCs) and fortified by our strong knowledge and expertise in the areas of cybersecurity and Threat Intelligence, Odyssey's Managed Security Services function as a seamless extension of your security operations. This is how we help you close the cybersecurity gap and ensure that your security posture reflects your organization's strategic objectives, at all times.

## Security Monitoring & Event Management

Odyssey's Security Monitoring & Event Management empowers organizations to promptly enhance their detection, Incident Response, Forensics, Legal, Audit and Regulatory compliance capabilities and provides them with a clear real-time view of their networks', systems', users' and applications' activity. This dynamic 24/7 service helps to proactively identify, thus respond quickly, to suspicious and emerging cybersecurity threats and vulnerabilities, which could otherwise escalate into full-fledged cyberattacks.

## Managed Detection & Response (MDR)

Complementing Odyssey's Security Monitoring & Event Management, Managed Detection & Response (MDR) services enable organizations to stop and contain sophisticated attacks and insider threats, for which an organization may not be prepared. MDR 24/7 services are designed to respond to the impossible challenge of keeping up with today's sophisticated cyberattacks and insider threats, while at the same time providing real-time visibility into networks', systems', and applications' activity.

# WHY PARTNER WITH US

## **Close your Cybersecurity expertise gap NOW!**

Odyssey's Managed Security Services are specifically designed for organizations that lack the resources and skills required to protect themselves from sophisticated targeted attacks and insider threats. Most importantly, you begin reaping the benefits of our services **IMMEDIATELY**, without long and ineffective service setup timelines.

## **Managed Security Services that stand out**

Odyssey has been at the forefront of cybersecurity for more than a decade. We have been capitalizing on our collective experience, expertise and client feedback to develop our own cutting-edge cyber defense tools such as ClearSkies™ Endpoint Detection & Response (EDR) Agent and award-winning ClearSkies™ Big Data Advanced Analytics & Response Orchestration platform that utilizes behavioral analytics, heuristics and Threat Intelligence.

As part of delivering our Managed Security Services, we deploy, monitor and manage on your premises the necessary technologies and tools. These tools, coupled with our unique Human Intelligence and Threat Intelligence capability, constitute a robust combination which results in the timely detection and response to sophisticated targeted attacks and insider threats that would otherwise go unnoticed.

## **You Are Always in Control**

Keeping you in control of your cybersecurity posture is very important to us.

Our work and assistance are transparent.

Odyssey's SOC Analysts stay in direct contact with your designated personnel for incident validation and response. A detailed root-cause analysis accompanies incidents raised, along with a suggested course of action, if necessary.

# WE ARE ODYSSEY

## YOUR **ONE** STRATEGIC PARTNER IN CYBERSECURITY

Odyssey is a leader in Cybersecurity, supporting organizations around the globe in their cyber resilient journey.

For more than two decades, Odyssey empowers customers to build an effective and applicable Cybersecurity Strategy, to effectively anticipate, respond, swiftly recover, and adapt to the destructive threats of a dynamically expanding threat landscape.

Odyssey's holistic approach combines five pillars of solutions, services and products: Advisory Services (GRC), Integrated Solutions, Cloud Security, ClearSkies™ Threat & Vulnerability Management Platform and Managed Security / Detection & Response Services (MSDR). Each of the five pillars, both separately or combined, enable organizations to adhere to compliance requirements and effectively manage their digital risks, in all operational aspects of their organization: People, Process and Technology.

Odyssey is ISO 27001, ISO 9001 and ISO 22301 certified, SOC 2® Type 2 attested, and accredited by the Payment Card Industry Security Standards Council (PCI SSC) as a Qualified Security Assessor (QSA). Odyssey has received numerous global awards and recognitions, such as its inclusion in Gartner's Magic Quadrant for Security Information and Event Management for its ClearSkies™ SIEM. Additionally, the company has been certified as a Great Place to Work® for three consecutive years.

# 20 Years HUMAN INTELLIGENCE, INNOVATION & KNOWLEDGE

Our team consists of some of the best top-tier professionals in world. Their unique blend of skills and expertise together with vast talent, intelligence, experience and dedication are the driver behind our success. Our people's internal culture is that of excellence, extensive ongoing education, deep knowledge and expertise, and hands-on experience.

## OUR PEOPLE

- › 150 highly skilled professionals with Extensive Education, Expertise and Hands-On Experience

## RESEARCH & DEVELOPMENT

### IthacaLabs, Threat Intelligence Team

- › Disclosed 19 0-day Exploits "CVEs", which some of them are referenced by America's Cyber Defence Agency as an advisory
- › Bypassed Microsoft ATP In Office 365 to deliver malware via email
- › Develop custom payloads for Social Engineering exercises (custom Trojans communicating via HTTP and DNS protocols)
- › Homegrown Social Engineering platform

### ClearSkies Threat & Vulnerability Management Platform

- › SIEM
- › Active Defence
- › Endpoint Detection & Response Agent
- › Identity & Access
- › Vulnerability Management
- › DNS Shield

## CERTIFICATIONS

CISSP | CISA | CISM | CEH |
