TECHNOLOGY RESILIENCE

Technology alone doesn't make your business resilient, how it's configured, maintained, and monitored does. Our Technology Resilience services optimize your infrastructure, applications, and configurations are continuously optimized for performance, availability, and compliance. Whether you're facing complex regulatory obligations or simply want to reduce downtime risk, we help you stay ahead securely and efficiently.

Ensure Business Continuity

Implement robust recovery strategies to keep critical operations running without disruption.

Reduce Operational Risk

Stay ahead of downtime with proactive patching, backup, and configuration management.

Prove Cyber Resilience

Validate your organization's readiness through continuous assessments and testing.

Strengthen Infrastructure Integrity

Harden systems and eliminate misconfigurations to fortify your security posture.

Maintain Compliance Confidence

Meet evolving regulatory demands with consistent monitoring and expert support.

TRUSTED GLOBALLY

Our Managed Services are trusted by leading organizations in more than 30 countries across Europe, the Middle East, Asia, and the Americas. Spanning industries such as Financial Services, Healthcare, Energy & Utilities, Retail, Manufacturing, and the Public Sector, we empower businesses worldwide to strengthen their cyber resilience and ensure uninterrupted operations.

“We needed more than just a vendor; we needed a partner who truly understands our business and could deliver tailored solutions. Our stores operate 24/7, and any disruption can significantly affect both our service and reputation.”

WE ARE ODYSSEY

SECURE YOUR CYBER RESILIENT FUTURE

Odyssey is a leader in Cybersecurity, supporting organizations globally through their journey towards attaining and sustaining cyber resilience in a highly volatile threat landscape.

Driven by our core values: **Innovation, Passion for Excellence & Client Focus**, empowered by a rich skillset and stealth code of ethics, we help clients build digital ecosystems capable of anticipating, responding, withstanding, adapting to adverse conditions, and quickly recovering from disruptive cyber-attacks while meeting compliance obligations.

To fulfill this mission, we have developed a **360° Holistic Approach for Achieving Cyber Resilience**, consisting of solutions, services, and product offerings classified into four distinct yet synergistic pillars, namely: **Managed Services, Advisory Services, Hybrid Integrated Solutions** and **ClearSkies™ TDIR Platform**.

Unique to our approach is the breadth and depth of our **World Class Professional Services** involvement in delivering our solutions, services and products, which come to optimize and amplify the efficiency, effectiveness and value of our offerings.

We operate state-of-the-art SOC2® attested Security Operations Centers in multiple regions, serving clients globally. We are ISO 27001, ISO 9001 and ISO 22301 certified, and accredited by the Payment Card Industry Security Standards Council (PCI SSC) as a Qualified Security Assessor (QSA).

Through our two-decade journey, we have received numerous global and national awards and recognitions, among which, inclusion in the Gartner Magic Quadrant for Security Event Management Systems and Data Impact Award for the "Most Admirable Architecture", both for our ClearSkies™ TDIR Platform. Also, several service excellence and innovation awards from national and international bodies.
